

JERICO IBÁÑEZ

Junior Software Engineer

Sampaloc, Manila | jericoibanez0326@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Junior software engineer with hands-on experience building and maintaining full-stack web applications using TypeScript, React, Node.js, and PostgreSQL. Skilled in developing backend APIs, debugging cross-stack issues, and improving application stability in production environments. Strong foundation in system design, data flow management, and collaborative development.

TECHNICAL SKILLS

Core Technologies

TypeScript, JavaScript, React, Next.js, Node.js

Backend Development

REST API Development, Authentication & Authorization (JWT, NextAuth), Ruby on Rails, Firebase Cloud Functions

Databases

PostgreSQL, MySQL, Firestore, Supabase

Tools & Workflow

Git, GitHub, Agile/Scrum, Vercel, Firebase Hosting

AI & LLM Development

Claude API, Prompt Engineering, LLM Integration

RELEVANT EXPERIENCE

- **Optrizo Digital Solutions** — Full Stack Engineer | Mar 2025 – Present
 - Debugged and resolved cross-stack issues affecting frontend, backend, and database components in production.
 - Investigated and fixed API integration and data flow problems causing UI inconsistencies.
 - Improved application stability by identifying root causes of recurring system defects.
 - Collaborated with team members to troubleshoot and resolve issues across the full application stack.
 - Contributed to maintaining production systems by resolving critical issues affecting application stability.
- **Digiteer Software Studio** — Software Engineer (Intern) | Sept 2024 – Dec 2024
 - Developed and maintained backend components for internal and client-facing applications.
 - Fixed UI bugs and improved component behavior using modern JavaScript frameworks.
 - Integrated frontend features with backend APIs to support data-driven functionality.
 - Assisted in debugging and resolving issues across multiple layers of the application.

SELECTED TECHNICAL PROJECTS

- **NexSkill Learning Portal** — AI Engineer | Dec 2025 - Jan 2026
(Live Page: <https://nexskill-cms.vercel.app/login>)
 - Developed a frontend LMS prototype using React and TypeScript.
 - Designed role-based system structure for multiple user types.
 - Implemented interactive features such as course tracking, quizzes, and dashboards.
 - Integrated AI-assisted features using the Claude API for learning recommendations.
- **Barangay Fairview E-Governance Portal** — Full Stack Developer | Sept 2024 - Nov 2025
(Live Page: <https://capstone-project-six-livid.vercel.app>)
 - Built a full-stack e-governance platform managing resident records, document requests, and incident reports for a large user base.
 - Designed and implemented backend APIs and database schemas supporting core system workflows.
 - Developed role-based authentication and authorization for administrative users.

- Created dashboards and reporting tools to support operational processes
- **Hakum Auto Care Services Platform** — Full Stack Developer | Mar 2025 – Oct 2025
(Landing Page: <https://www.hakumautocare.com>)
 - Developed and maintained platform features supporting booking and scheduling workflows.
 - Implemented backend APIs and handled structured data using Supabase.
 - Built and refined frontend components to improve usability and user experience.
 - Resolved 30+ frontend and backend issues, improving system stability and reliability.
- **Mayor Javi Benitez Public Information Website** — Software Engineer (Intern) | Sept 2024 – Dec 2024
 - Developed backend APIs supporting content and announcement workflows.
 - Built frontend components and contributed to automated content distribution features.

EDUCATION

De La Salle University - Manila | Oct 2020 – Dec 2025
Bachelor of Science in Information Technology, Minor in Psychology

Colegio de San Juan de Letrán | 2018 – 2020
STEM Strand

CERTIFICATIONS

Claude AI Developer Training — Anthropic | Issued Mar 2026
Focused on building AI-powered features using LLMs, including prompt engineering, API integration, and AI workflows.
Includes: Claude Code in Action, Claude 101, AI Fluency: Framework & Foundations
[Credential Link](#)

Airtable Builder Certification — Airtable | Issued Feb 2025 · Expires Mar 2027
Demonstrated ability to design and manage structured data workflows and automation processes.
[Credential Link](#)

DFIR Foundations and Techniques Course — Blue Cape Security | Issued Jul 2025
Covered data investigation techniques and analysis of system-level incidents.
[Credential Link](#)

AWS Academy Graduate - AWS Academy Cloud Foundations — AWS Academy | Issued Apr 2024
Learned core cloud computing concepts including AWS services, architecture, and deployment.
[Credential Link](#)
